SUMMARY OF QUALIFICATIONS

I am a finishing student in Computer Science Technology at LaSalle College, looking to obtain an internship position where I can apply my skills and knowledge learnt throughout my studies. I have knowledge in web development and proven time management.

EDUCATION

DEC – Computer Science Technology

2022 – Present

LaSalle College, Montreal, QC

PROFESSIONAL EXPERIENCE

Customer Service Representative

2022 – Present

Maxi

Montreal, Canada

- Process transactions accurately and efficiently using cash registers.
- Maintain a clean and organized work environment, including cashier stations and retail displays.
- Collaborate with team members to deliver exceptional service consistently.
- Train new recruits to expand our team.

PROJECT

Bug Tracker- HTML, CSS, SASS, React.js, TypeScript, ASP .NET MVC, MySQL

- The application allows teams to create tickets to track changes in projects thus facilitating collaboration.
- Implemented the MVC design pattern.
- Built a responsive view (frontend) with ReactJS.
- Built the controller (backend) with ASP .NET MVC.
- Implemented authentication and authorization using JWT tokens and the Identity library.
- The database is manipulated with Entity Framework.
- Used axios to make request to and receive data from backend APIs.
- Implemented role-based authorization such as only admins and project managers can add and remove employees from a project.
- This is an individual project

Library Management System - Java, SQLite

- Login and logout as either employee or a customer
- Ensures an employee, book, comic, or customer is created once.
- Managers and employees can see all the books and comics in the system. They can add new ones.
- Only managers can add customers to the system.
- Customers can see all available books and comics. They can also reserve, borrow or return books and comics.
- Implementation of design patterns: the abstract factory and builder patterns.
